Dear Brooke:

Thank you for stopping by my office to meet with my staff and discuss the work of the National Assembly on School Based Health Care and the Illinois Maternal and Child Health Coalition. I regret that I was unable to join the conversation, but Juleigh has briefed me on the meeting.

I look forward to working together on the critically important issue of providing comprehensive health services to our country's most vulnerable demographic -- our children. I was able to work on this priority concern as a member of the Illinois Senate and am eager to continue this concentration in the United States Senate.

Thank you again so much for your time and concern.

Sincerely,

Barack Obama
